United States Bankruptcy Court   **District of Hawaii**

INSTRUCTIONS FOR DETERMINING IF YOUR BROWSER
SUPPORTS 128-BIT ENCRYPTION

Microsoft Internet Explorer [Version 4.x or greater]

,   Click on the "Help" tab on your menu bar at the top of the screen.
,   Scroll down and select "About Internet Explorer."
,   A small window will appear in the center of your screen indicating the version, as well as the encryption or cipher strength of your browser (either 40-bit, 56-bit or 128-bit). If the screen indicates you have a 40-bit or 56-bit version, or if it doesn't indicate the encryption level, you will need to upgrade to a version with 128-bit encryption.

Netscape Navigator/Communicator [4.x or greater]

,   Click on the "Help" tab on your menu bar at the top of the screen.
,   Scroll down and select "About Navigator" or "About Communicator."
,   A screen will appear that listed the details of your browser. Look for a section on the left and toward the middle that begins "Contains encryption software from RSA Data Security, Inc. . . . " If the next paragraph begins, "This version supports U.S. Security . ." Your browser has 128-bit encryption. If it says that you have " International security", your browser has 40-bit or 56-bit encryption and you will need to upgrade to a version with 128-bit encryption.
